Total U.S. Insurance Experience: 2 Years 4 Months

Gallagher Service Center: Sep 2022 – Apr 2024 | WNS Global Services / Amerisure: Aug 2025 – Present

PROFESSIONAL SUMMARY

U.S. P&C Insurance Operations professional with 2+ years of progressive, hands-on experience managing the full commercial policy lifecycle — Quotation, Renewal, Requote, and Endorsement — for U.S. insurers including Amerisure Insurance and Gallagher's international insurance portfolio. Proficient in Guidewire PolicyCenter, Impact, and ImageRight across Commercial Auto and CGL lines. Recognized as **Best Quality Performer at Gallagher** for elite accuracy and compliance. Backed by a strong foundation in high-volume back-office operations and a clear, long-term commitment to growing within U.S. insurance operations, underwriting support, and insurance technology.

CORE COMPETENCIES

- ◆ U.S. P&C Insurance — Commercial Auto, CGL
- ◆ Guidewire PolicyCenter (Underwriting Systems)
- ◆ ImageRight Document Management System
- ◆ Policy Lifecycle — Quotation, Renewal, Requote & Endorsement
- ◆ Underwriting Support & New Business Processing
- ◆ SLA Management & Quality Compliance
- ◆ Process Documentation, SOPs & Gap Analysis
- ◆ Back-Office Operations & High-Volume Data Processing
- ◆ Cross-functional Communication with U.S. Underwriters
- ◆ AI Tools — ChatGPT, Google Gemini & Claude
- ◆ Prompt Engineering

PROFESSIONAL EXPERIENCE

WNS Global Services | Operations Associate

Pune • Aug 2025 – Present

Client: Amerisure Insurance

- Manage day-to-day U.S. Commercial Auto (P&C) insurance operations for Amerisure Insurance across four core work streams: Quotation, Renewal, Requote, and Endorsement.
- **Quotation & Requote:** Process new business quote submissions and re-quoted risks end-to-end — capturing risk data, applying underwriting guidelines, and issuing accurate quotes within SLA timelines using Guidewire PolicyCenter and Impact.
- **Renewals:** Manage policy renewal workflows including review of expiring policies, verification of updated risk details, and coordination with underwriters to ensure timely and compliant renewal issuance.
- **Endorsements:** Execute mid-term policy changes (coverage adjustments, vehicle additions/deletions, limit modifications) with precision, validating liability symbols, deductibles, and coverage selections against underwriting rules.
- Collaborate directly with U.S.-based underwriters to resolve documentation gaps and expedite policy turnaround — consistently maintaining quality scores above team benchmarks.
- Contributed to process-improvement discussions that reduced average handling time across the Quotation and Renewal work queues.

Self-Employed | Freelance Java Trainer

Nagpur • May 2024 – May 2025

- Designed and delivered structured Core Java and Spring Boot training programs for 5+ learners.
- Built and managed a custom web-based learning platform (onlinetrainingapp.netlify.app) to host course material and handle learner queries end-to-end.

Gallagher Service Center LLP | Process Analyst

Pune • Sep 2022 – Apr 2024

- Was part of the New Business Submission Team, responsible for processing commercial insurance submissions received from U.S.-based Underwriters, including ACORD forms, supplemental applications, loss runs, and supporting documents.

- Utilized the AIM database to update and maintain insured information — capturing details such as Named Insured, Agency, and Underwriter Name — accurately as per the submitted forms and underwriting instructions.
- Assigned appropriate lines of coverage to each submission including CGL, Truckers, and Commercial Auto based on the risk profile and underwriting requirements.
- Managed document handling in the ImageRight document management system — attaching ACORD applications, loss runs, broker correspondence, and other supporting attachments to the respective policy files.
- Assigned follow-up tasks to Underwriters within ImageRight to facilitate timely review, decision-making, and case closure.
- Liaised with U.S.-based underwriters to obtain missing documentation critical for policy binding and case closure, reducing turnaround delays.
- Awarded **Best Quality Performer** for maintaining the highest accuracy and compliance standards within the team across multiple quarters.

Automatic Infotech | Trainee Consultant — SAP MM

Pune • Feb 2022 – Jun 2022

- Completed a structured SAP MM (Materials Management) internship with hands-on exposure to procurement workflows, purchase order processing, goods receipt, and inventory management within an enterprise ERP environment.
- Gained foundational skills in enterprise data systems, structured data entry, and end-to-end procurement cycle management.

Sapalogy Pvt Ltd | SAP MM Training

Nagpur • Oct 2021 – Feb 2022

- Completed a professional SAP MM (Materials Management) course — developing structured data processing skills including purchase orders, goods receipt, and inventory workflows, which underpin disciplined back-office operations thinking.

Amazon | Process Associate

Bengaluru (Remote) • Jan 2021 – Sep 2021

- Managed Amazon UAE marketplace operations with a focus on product mapping, competitor analysis, and data accuracy — demonstrating core back-office skills: data validation, SLA adherence, and high-volume processing.
- Researched competitor platforms (Sharaf DG, Mumzworld AE) and compiled structured comparison data shared with the pricing team for strategic listing decisions.

AWARDS & RECOGNITION

■ Rising Star Award | Gallagher Service Center LLP

Recognized for outstanding quality performance, consistently exceeding accuracy benchmarks and demonstrating exceptional commitment to operational excellence in U.S. P&C Insurance operations.

■ Promotion: Process Associate → Process Analyst | Gallagher Service Center LLP

Promoted internally in recognition of strong domain expertise, high-quality output, and demonstrated ability to independently handle complex U.S. insurance operations workflows.

■ Cross-Training Recognition | WNS Global Services

Selected for cross-training into the Endorsement, Renewal, and Requote Teams due to consistently strong performance — demonstrating versatility across all major P&C policy lifecycle functions.
